

## Cyrille DELPIERRE

Docteur de Sciences en épidémiologie et Directeur de recherche  
Laboratoire Inégalités Sociales de Santé, cancer et maladies chroniques

Unité mixte 1027 INSERM

Université Paul Sabatier, Toulouse

[cyrille.delpierre@inserm.fr](mailto:cyrille.delpierre@inserm.fr)

### THEMES DE RECHERCHE

- Les inégalités sociales de santé ISS, en particulier les déterminants biopsychosociaux de la santé et de l'analyse des mécanismes de construction des ISS, en particulier dans le domaine des maladies chroniques comme le cancer.
- Les mécanismes par lesquels l'environnement, au sens large, est biologiquement incorporé, et comment il peut favoriser le développement de maladies à long terme. Il s'agit d'expliquer les ISS non seulement par des expositions physiques, chimiques et des comportements de santé socialement différenciés, mais aussi en montrant que les déterminants sociaux peuvent «directement» modifier des processus biologiques et favoriser le développement de pathologies à la distance, participant ainsi à la genèse du gradient social en santé.

### MOTS-CLES

Inégalités sociales de santé - Incorporation biologique - Lifecourse épidémiologie - Maladies chroniques (cancer)
